method where payments are made prior to delivery or completion of the product or a service. There are statutory limitations (e.g., 31 U.S.C. 3324 and 41 U.S.C. 4505) on the Federal Governments use of advance payments.

Advance payments to Government contractors for goods and services are generally prohibited unless specifically authorized. (3) (i) Except as provided in paragraph (b)(3)(ii) of this clause, sustainable products and services must meet the applicable standards, specifications, or other program requirements at time of quote or offer submission; and

(ii) Sustainable products and services must meet the EPA Recommendations of Specifications, Standards, and Ecolabels in effect as of October 2023.

(a) *Definition.* Transactional data, as used in this clause, encompasses the historical details of the products or services delivered by the Contractor during the performance of task or delivery orders issued against this contract.

(b) *Reporting of transactional data.* The Contractor must report all transactional data under this contract as follows:

(1) The Contractor must electronically report transactional data by utilizing the reporting system at an internet website designated by the General Services Administration (GSA) or by uploading the data according to GSA instructions. GSA will post registration instructions and reporting procedures on the Vendor Support Center website at <https://vsc.gsa.gov>. The reporting system website address, as well as registration instructions and reporting procedures, will be provided at the time of award or inclusion of this clause in the contract.

(2) The Contractor must provide, at no additional cost to the Government, the following transactional data elements, as applicable:

(i) Contract or Blanket Purchase Agreement (BPA) Number.

- (ii) Delivery/Task Order Number/Procurement Instrument Identifier (PIID).
- (iii) Non Federal Entity.
- (iv) Description of Deliverable.
- (v) Manufacturer Name.
- (vi) Manufacturer Part Number.
- (vii) Unit Measure.
- (viii) Quantity of Item Sold.
- (ix) Universal Product Code.
- (x) Price Paid per Unit.
- (xi) Total Price.
- (xii) Special Item Number (SIN).
- (xiii) Agency Name (for OS4 SINs only).
- (xiv) Tier 3 Agency Name (for OS4 SINs only).

(3) The Contractor may provide, at no additional cost to the Government, the following transactional data elements, as applicable:

- (i) Order Date.
- (ii) Ship Date.
- (iii) Zip Code Shipped To.
- (iv) Federal Customer - Treasury Agency Code.

(4) Based on the reporting points listed in paragraph (b)(8) of this clause, the Contractor must report transactional data within 30 calendar days from the last calendar day of the month. If there was no contract activity during the month, the Contractor must submit a confirmation of no reportable transactional data within 30 calendar days of the last calendar day of the month.

(5) The Contractor must report transactional data elements with an associated monetary value (e.g., price paid per unit and total price) in U.S. dollars.

(6) The reported price paid per unit and total price must include the Industrial Funding Fee (IFF).

(7) The Contractor must maintain a consistent accounting method of transactional data reporting, based on the Contractor's established commercial accounting practice.

(8) Reporting Points. (i) The acceptable points at which transactional data may be reported include—

(A) Issuance of an invoice; or

(B) Receipt of payment.

(ii) The Contractor must determine whether to report transactional data on the basis of invoices issued or payments received.

(9) The Contractor must furnish transactional data reports, including confirmation of no transactional data, through physical completion of the last outstanding task or delivery order of the contract.

(10) Unless otherwise expressly stated by the ordering activity, orders that contain classified information or other information that would compromise national security are exempt from this reporting requirement.

(11) This clause does not exempt the Contractor from fulfilling reporting requirements contained elsewhere in the contract.

(12) GSA reserves the unilateral right to change reporting instructions and reporting procedures following 60 calendar days advance notification to the Contractor.

(c) *Industrial Funding Fee.*

(1) This contract includes an IFF charged on orders placed against this contract. The IFF is paid by the authorized ordering activity but remitted to GSA by the Contractor. The IFF reimburses GSA for the costs of operating the Federal Supply Schedule program, as set forth in 40 U.S.C. 321. Net operating revenues generated by the IFF are also applied to fund initiatives benefiting other authorized GSA programs, in accordance with 40 U.S.C. 321.

(2) GSA has the unilateral right to change the IFF amount at any time, but not more than once per year; GSA will provide reasonable notice prior to the effective date of any change. GSA will post notice of the current IFF on the Vendor Support Center website at <https://vsc.gsa.gov>.

(3) Offerors must include the IFF in their prices. The IFF is included in the awarded price(s) and reflected in the total amount charged to ordering activities. The IFF will not be included in the price of non-contract items purchased pursuant to a separate contracting authority, such as a Governmentwide Acquisition Contract (GWAC); a separately awarded Federal Acquisition Regulation (FAR) part 12, 13, 14, or 15 procurement; or a non-FAR contract.

(4) The Contractor must remit the IFF to GSA in U.S. dollars within 30 calendar days after the last calendar day of the reporting quarter; final payment must be remitted within 30 calendar days after physical completion of the last outstanding task order or delivery order issued against the contract.

(5) GSA reserves the unilateral right to change remittance instructions following 60 calendar days advance notification to the Contractor.

(d) *Non-compliance.* The Contractor's failure to remit the full amount of the IFF within 30 calendar days after the end of the applicable reporting period constitutes a contract debt to the United States Government under the terms of FAR subpart 32.6. The Government may exercise all rights under the Debt Collection Improvement Act of 1996, including withholding

or offsetting payments and interest on the debt (see FAR clause 52.232-17, Interest). If the Contractor fails to submit the required transactional data reports, falsifies them, or fails to timely pay the IFF, these reasons constitute sufficient cause for the Government to terminate the contract for cause.

**52.223-16 ACQUISITION OF EPEAT®-REGISTERED PERSONAL
COMPUTER PRODUCTS (OCT 2015)**

(a) *Definitions.* As used in this clause –

Computer means a device that performs logical operations and processes data. Computers are composed of, at a minimum:

- (1) A central processing unit (CPU) to perform operations;
- (2) User input devices such as a keyboard, mouse, digitizer, or game controller; and
- (3) A computer display screen to output information. Computers include both stationary and portable units, including desktop computers, integrated desktop computers, notebook computers, thin clients, and workstations. Although computers must be capable of using input devices and computer displays, as noted in (2) and (3) above, computer systems do not need to include these devices on shipment to meet this definition. This definition does not include server computers, gaming consoles, mobile telephones, portable hand-held calculators, portable digital assistants (PDAs), MP3 players, or any other mobile computing device with displays less than 4 inches, measured diagonally.

Computer display means a display screen and its associated electronics encased in a single housing or within the computer housing (*e.g.*, notebook or integrated desktop computer) that is capable of displaying output information from a computer via one or more inputs such as a VGA, DVI, USB, DisplayPort, and/or IEEE 1394–2008TM, Standard for High Performance Serial Bus. Examples of computer display technologies are the cathode-ray tube (CRT) and liquid crystal display (LCD).

Desktop computer means a computer where the main unit is intended to be located in a permanent location, often on a desk or on the floor. Desktops are not designed for portability and utilize an external computer display, keyboard, and mouse. Desktops are designed for a broad range of home and office applications.

Integrated desktop computer means a desktop system in which the computer and computer display function as a single unit that receives its AC power through a single cable. Integrated desktop computers come in one of two possible forms:

- (1) A system where the computer display and computer are physically combined into a single unit; or
- (2) A system packaged as a single system where the computer display is separate but is connected to the main chassis by a DC power cord and both the computer and computer display are powered from a single power supply. As a subset of desktop computers, integrated desktop computers are typically designed to provide similar functionality as desktop systems.

Notebook computer means a computer designed specifically for portability and to be operated for extended periods of time either with or without a direct connection to an AC power source. Notebooks must utilize an integrated computer display and be capable of operation off of an integrated battery or other portable power source. In addition, most notebooks use an external power supply and have an

integrated keyboard and pointing device. Notebook computers are typically designed to provide similar functionality to desktops, including operation of software similar in functionality to that used in desktops. Docking stations are considered accessories for notebook computers, not notebook computers. Tablet PCs, which may use touch-sensitive screens along with, or instead of, other input devices, are considered notebook computers.

Personal computer product means a computer, computer display, desktop computer, integrated desktop computer, or notebook computer.

(b) Under this contract, the Contractor shall deliver, furnish for Government use, or furnish for Contractor use at a Federally controlled facility, only personal computer products that, at the time of submission of proposals and at the time of award, were EPEAT[®] bronze-registered or higher.
