Resources you need to update your Price List

- **Schedule Input Program, SIP:** Make sure SIP is updated to the current version. You must have SIP version 8.5. If you need to download the current version, please go to https://vsc.gsa.gov/sipuser/sip_download.cfm
- **I-FSS-600 CONTRACT PRICE LISTS (SEE APPENDIX):** This clause specifies the information that must be included in your GSA price list. Additional information may be required by the Large Category, Subcategory and/or SIN Contracting Officer.
- **Available Offerings Attachment on the [Available Offerings and Requirements page](#):** This workbook includes a crosswalk of your legacy SINs to the new SINs and the updated Maximum Order information.
 - Use the tab labeled “Legacy ScheduleSIN to Consolida...”
 - Legacy SINs are in column B
 - New MAS SINs are in column H
 - Use the tab labeled “NEW Consolidated Available Offe...”
 - Maximum order for the new SINs is in column J

What does NOT need to be updated in your Price List?

- **Contract number:** You will keep your same GSA contract number.
- **Period of performance:** Your contract begin and end date did not change.
- **Business size:** While North American Industry Classification System (NAICS) code(s) assigned to SINs may have changed, the preponderance of work North American Industry Classification System (NAICS) code on the contract did not change as a result of the MAS Consolidation Mass Mod, so the business size must match previous price lists.
- **Negotiated factors** such as the following did not change:
 - Delivery, Minimum Order, Discounts, etc.

CRITICAL FIRST STEP

Sign the MAS Consolidation Mass Mod (A812) in the [Mass Mod Portal](#)

The Admin Rep for your company should have received an email with instructions to complete the Mass Mod A812 between January 31 and February 11. If you need your PIN reset, contact your Administrative Contracting Officer (ACO). Find your ACO using the [ACO/IOA Locator](#). Make sure you sign the Mass Mod for each of your current GSA contracts. The steps that follow apply to each of your current contract Price Lists. If you have multiple contracts, you will need to update each Price List.

After you sign the Mass Mod A812

Below is a list of the data elements in I-FSS-600 that will need to be changed after accepting Mass Mod A812.

1. **Update "Supplement No. (sequentially numbered)" and the effective date(s) of such supplements**

On your cover page, you should have reference to the most recent modification number and effective date for version control of your pricelist. After accepting Mass Mod A812, update your cover page with A812 and the date you signed the Mass Mod.

2. **Update the "Schedule Title" from legacy Schedule to Multiple Award Schedule**

All Schedule titles should be changed to Multiple Award Schedule (MAS). For example, if you currently have a Professional Services Schedule (PSS) or IT Schedule 70, you would change PSS to Multiple Award Schedule or IT Schedule 70 to Multiple Award Schedule.

3. **Update FSC Group, Part, and Section or Standard Industrial Group (as applicable)**

- Note the “Large Categories” available on your contract (e.g. Information Technology, Professional Services, Office Management, etc.)

4. Update FSC Class(es)/Product code(s) and/or Service Codes (as applicable)

- List the Product Service Code(s) (PSC) associated with the new SIN(s). This information is available on Available Offerings Attachment on the [Available Offerings and Requirements page](#). See column I in the “NEW Consolidated Available Offer...” tab.

5. Replace all references throughout your Price List from legacy Schedule to MAS or Multiple Award Schedule.

Comb through your entire Price List to identify any areas where you may have referenced the legacy Schedule name or number throughout the document.

6. Replace every reference to legacy SIN(s) with new SIN(s).

Use the Available Offerings Attachment on the [Available Offerings and Requirements page](#) to map your legacy SINs to your new SINs. Replace the SIN number, title, and description, as applicable.

7. Maximum order

In the maximum order, also known as Maximum Order Threshold (MOT) or Maximum Order Limitation (MOL), sections of your Price List replace the old Maximum Order for the legacy SIN with the Maximum Order for the new SIN. This information is found on the Available Offerings Attachment on the [Available Offerings and Requirements page](#), see column J on tab labeled “NEW Consolidated Available Offer”.

Below are Frequently Asked Questions about the Maximum Order:

Maximum Order Threshold FAQs

1. What is the significance of the Maximum Order Threshold (MOT)?

Under the MAS program, the maximum order amount is set by the Special Item Number (SIN) as the threshold at which a contractor should: (a) not be obligated to honor the order(s) given the volume/dollar value, and (b) expect to give additional price reductions (see 552.238-81) given the nature of the items/services included under a particular SIN. This MOT also plays a part in price reductions clause compliance, as contractors are allowed to give additional discounts on orders that exceed the MOT to their Most Favorite Customer(MFC)/Basis of Award (BOA) Customer and the price reductions clause is not triggered in these situations.

See clause [52.216-19 ORDER LIMITATIONS \(OCT 1995\)](#) for more information.

2. Can a contractor have orders that exceed the MOT?

Yes, the maximum order threshold does not prevent contractors from having orders that exceed the MOT. A maximum order threshold of \$250,000 does not mean that a contractor cannot have an order that exceeds \$250,000.

3. What is the impact of MOT changes on previously disclosed commercial sales practices? Can discounts based on the MOT be renegotiated?

There is no impact to previously disclosed commercial sales practices until they are renegotiated and a modification is awarded to change applicable commercial sales practices. Contractors can renegotiate their discounts at any time with sufficient justification.

4. Many MOTs increased through MAS Consolidation. How did GSA determine the MOT?

When SINs were consolidated to create the new SINs, GSA reviewed MOTs on the existing SINs and chose the lowest threshold. If the legacy MOT(s) was less than the current Simplified Acquisition Threshold (SAT) of \$250,000 per [GSA Class Deviation 2018-01](#), GSA elevated the MOT to the SAT.

APPENDIX: I-FSS-600 CLAUSE

In the below version I-FSS-600 clause, we have indicated the information that needs to be updated after signing the MAS Consolidation Mass Mod. Please make sure to check the MAS solicitation for the most current version of the clause.

I-FSS-600 CONTRACT PRICE LISTS (OCT 2020)

(a) Electronic Contract Data.

(1) At the time of award, the Contractor will be provided instructions for submitting electronic contract data in a prescribed electronic format as required by clause 552.238-77, Submission and Distribution of Authorized FSS Schedule Price Lists.

(2) The Contractor will have a choice to transmit its file submissions electronically through Electronic Data Interchange (EDI) in accordance with the Federal Implementation Convention (IC) or use the application made available at the time of award. The Contractor's electronic files must be complete; correct; readable; virus-free; and contain only those supplies and services, prices, and terms and conditions that were accepted by the Government. They will be added to GSA's electronic ordering system known as GSA Advantage!®, a menu-driven database system that provides on-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic order. The Contractor's electronic files must be received no later than 30 days after award. Contractors should refer to clause 552.238-88, GSA Advantage! ® for further information.

(3) Further details on EDI, ICs, and GSA Advantage! ® can be found in clause 552.238-103, Electronic Commerce.

(4) The Contractor is encouraged to place the GSA identifier (logo) on their web site for those supplies or services covered by this contract. The logo can link to the contractor's Federal Supply Schedule price list. The identifier URL is located at <http://www.gsa.gov/logos>. All resultant "web price lists" shown on the contractor's web site must be in accordance with section (b)(3)(ii) of this clause and nothing other than what was accepted /awarded by the Government) may be included. If the contractor elects to use contract identifiers on its website (either logos or contact number) the website must clearly distinguish between those items awarded on the contract and any other items offered by the contractor on an open market basis.

(5) The contractor is responsible for keeping all electronic catalogs data up to date; e.g., prices, product deletions and replacements, etc.

(b) Federal Supply Schedule Price Lists.

(1) The Contractor must also prepare and distribute a Federal Supply Schedule Price List as required by clause 552.238-77 Submission and Distribution of Authorized FSS Schedule Price Lists. This must be done as set forth in this paragraph (b).

(2) The Contractor must prepare a Federal Supply Schedule Price List by composing a price list which only those items, terms, and conditions accepted by the Government are included, and which contain only net prices, based upon the commercial price list less discounts accepted by the Government. In this instance, the Contractor must show on the cover page the notation "Prices Shown Herein are Net (discount deducted)".

(3) The cover page of the Federal Supply Schedule Price List must include the following information prepared in the format set forth in this subparagraph (b)(3):
